Trey Stokes

Associate Director

Trey is the Associate Director of Cybersecurity Education & Awareness for Alliant Cybersecurity. Trey speaks with hundreds of C-level executives each year across a broad array of industries educating them on how they can protect their businesses from cyber threats. Before joining Alliant, Trey served at AT&T advising mid-market clients across the US on network and security design and implementation with a specialization in cybersecurity. Trey holds a Masters degree from the University of Alabama's Culverhouse College of Business and a bachelors in psychology.

Experience

- Multiple years consulting within the mid-market business regarding network and security design
- Actively reaches out to clients nation wide to better strengthen the security of SMB's
- Creates strong relationships with clients to create awareness within the Cybersecurity Practice
- Advise clients in current events that affect businesses every single day
- Assist mid-market businesses with identifying gaps within existing privacy programs and designing solutions to address those challenges
- Provides knowledge concerning compliances in all sectors synonymous with local, state, and national compliance requirements
